The chart on the right hand column is sadly becoming common place in the American home, and was the same situation that happened to Matt – which would have been a complete disaster for his entire family.

Several months ago, Matt's bills kept piling up, causing him to panic and make poor financial decisions which kept both his wife and himself awake at night.

Without taking action. Matt and his wife faced bankruptcy, losing their beautiful home, and even divorce. They would have become another tragic statistic; one of the 1,170,324 families which filed for bankruptcy in 2013 alone.

Who knows? Matt may have found a way to save his marriage, but the damage to his credit or losing his home would have made his life much harder and more miserable.

Credit - wise it would have been very difficult for him to ever get another mortgage or loan, much less financing for his kids college.

Instead, Matt is now on his way to quickly eliminating his debt and bills.

Because a few weeks ago, Matt called us and we were able to consult and guide him, using proven strategies for debt elimination is legal in all 50 states.

Immediately, we appraised Matt's situation and provided him with drafted responses, and legal forms to his creditors so he could start the process of debt negotiation.

**Household debt is a crisis
thousands of Americans face
every day....**

**...causing people to lose their
well-being, homes and even
families.**

**Credit Card Debt and
Bankruptcy Can Wreck
Lives!**

- ➔ 1 out of every 100 households in the U.S. claim bankruptcy
- ➔ Over 40% of US families spend more than they earn
- ➔ Americans carry, on average, \$8400 in credit card debt
- ➔ 96% of all Americans will be financially dependent on the government, family, or charity at retirement

Because of Matt's new approach, creditors were legally blocked from collecting any monies and wound up selling their debt to another financial entity. Working with us, Matt knew debt collectors made huge profits whether or not they got every dollar.

Five Little Yet Important Letters Got Matt Out Of Debt And Put Him On The Road To Financial Independence

So, what is this amazing plan you get out of debt with?

Our consultants like to refer to this process by the five phases we help you through, and we like to use five letters to represent these phases – “**A-D-S-N-C**”. They stand for **A**sset Guard, **D**ebt Validation, **S**ecured Loan Deficiency Negotiation, **N**egotiation & Relief, and **C**redit Repair.

Our **ADSNC** plan was synthesized and used over 12 years ago by our firm, specializing in asset protection, and bankruptcy alternatives.

Statistically, uninformed people jump into other forms of settling their debts, much too soon, using solutions such as filing for bankruptcy, debt settlements, consolidation and other methods. With these poor alternatives, you totally lose

- The average U.S. household pays \$950 in interest each year
- There are 1.3 billion payment cards including credit cards, debit cards and store cards in circulation in the U.S.
- Total bankruptcy filings reached 1.45 million in 2013
- Before the economic downturn, 15% of American families held debt exceeding 42% of their household income
- Nearly 1 in 5 Americans aged 18-24 qualify themselves as being in debt

control, and you have no say in what happens to you and your family's financial future.

With our **ADSNC** program, you have a much more control over your financial future as well as a smaller commitment, which is a mere fraction of what these other methods require from you. This is a much safer way to eliminate your debts.

For example, more than 1,000 of our clients have used these approaches for debt elimination.

MSN's Money site has gone on record stating that working a plan using financial counseling, education and action is the best way to eliminate money problems. Our program has a group of products to assist you in this matter.

With **Asset Guard™** you have immediate access to online resources to guard your possessions as you build your case. You now have processes in place, initiating communication with your creditors, thus warding off any more harassment.

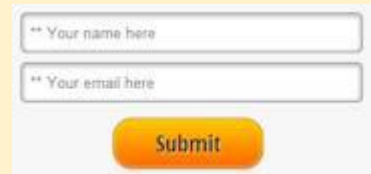

Privacy Protector™ is for clients that would rather have our team communicate with creditors for them. We'll act as a personal buffer between you and the creditors, giving you a new mailing address and taking phone calls for you. We understand creditors are smooth in the language of confusion and fear, this will ensure that our team of professionals will be answering questions for you, rather than you answering questions from debt collectors trying to trip you on your own words. This safeguard could save you thousands of dollars!

Our **Personal Profile and Asset Report** gives you an up-front intelligence report, allowing you the advantage of seeing what the creditors are looking at before they touch your precious possessions. This information can save you thousands of dollars alone!

Finally, we have a process of negotiation on debts involving property, vehicles and other belongings called **Secured Debt Assistance**. If you owe more on these possessions than you can sell them for, this service is for you. We will help you negotiate a settlement in which creditors and banks will agree on a selling price and forgive any shortage left over.

As collectors are hindered...as your credit becomes restored...and as you begin to get your financial life back in order...satisfied clients have reported that many of their monetary problems evaporated over time:

- Reduction and elimination of debts
- Protection and control of personal assets
- Cost effective for making monthly payments
- Additional taxes avoided

The form consists of two text input fields stacked vertically. The top field is labeled with a double asterisk and the text "Your name here". The bottom field is labeled with a double asterisk and the text "Your email here". Below the input fields is a yellow button with the word "Submit" in black text.

The Plan B - ADSNC Process In Action:

1. Using **Asset Guard™** we assist you in placing a personal lien on your name before a creditor can do it. This discourages lawsuits and judgments from being filed against you.
2. **Debt Validation** is a process that forces creditors to prove that your debts to them are valid. These actions strengthen your position of negotiation in dealing with creditors.
3. **Secured Loan Deficiency Negotiation** is very helpful in situations where the property or assets you own are worth much less than what is owed for them. This is very important for situations where your house or car is costing you much more than it is worth.
4. **Negotiation and Resolution** goes into action when the opportunity for settling and bargaining arrives. This will help you "keep your head above water" avoiding bankruptcy, protecting assets and eliminating garnishments by lawsuits or judgments.

- Bank account and wage garnishment avoided
- Actual debt balance decreased
- You maintain control of your situation
- Ability to avoid legal action while protecting your possessions
- Elimination of monthly payments
- Protection of income by application of the legal system
- Purging of debts in a short expanse of time
- Exposure to unnecessary risk reduced
- Reduce credit card debt by 80%
- Strategies for vehicle and real estate debt implemented
- Annoying collection calls ceased
- Eradication of payment plans to creditors

**Remarkable financial breakthrough:
The Incredible Power of Plan B Is Now In
Your Hands!**

Until recently, the process of getting out of debt was a slow and uncomfortable process.

You had to deal with expensive lawyers, debt settlement agencies, and you still had to fend off credit collection agencies.

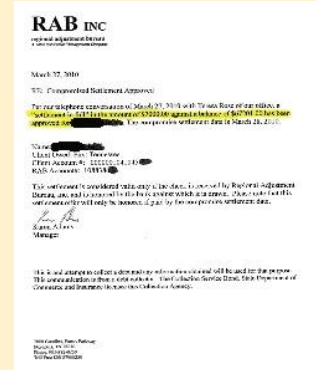

You had to spend scads of time trying to unravel a financial mess while working a job - a huge stress on both you and your family.

When it was all over, you were paying into a trust account, for settlement payoffs, you had the possibility of facing lawsuits and judgments...Which could drag on for months to years.

At tax time, your "forgiven debts" by the creditor is seen by the IRS as income and you will have to pay taxes on money you have never seen.

5. Credit Repair can now be applied.
